

FLYWIRE

Price: \$499-\$599
Availability: Summer 2008

FlyWire is a simple solution for placing your HDTV anywhere in the house without wires. It wirelessly connects your devices, such as an HD-DVD player or set top box, to your HDTV, eliminating unsightly cables and the need for costly custom installation.

FEATURES:

- Supports uncompressed, 1080p True Cinema transmission
- Includes transmitter and receiver
- Uses 5GHz band frequency

WHY IS FLYWIRE BETTER?

- Eliminates need for a cable connection from devices to TV
- Offers 1080p True Cinema HD resolution
- Simple and easy to set-up
- Cost-effective alternative to custom installation

SCENARIO

- You buy an HDTV and you have the perfect place to mount it, on the opposite wall of your devices.
- Connect the FlyWire receiver behind your TV, and the transmitter to your DVD player and set top box.
- Enjoy the content from your devices on your HDTV.
